EDUCATION

University Institute of Technology, RGPV — Shivpuri, Madhya Pradesh, India

Expected 2027

Bachelor of Engineering in Computer Engineering — CGPA: 8.18 / 10

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Distributed Systems

TECHNICAL SKILLS

Languages: Java (Core, Java 8), SQL, Bash

Backend / Frameworks: Spring Boot, Spring MVC, Spring Security, REST APIs, Hibernate/JPA

Databases: MySQL, H2, Redis; Query Optimization, Indexing

Core Concepts: Data Structures & Algorithms, Object-Oriented Design, SOLID Principles, Design Patterns (Singleton, Factory), Microservices, Distributed Systems Fundamentals, Complexity Analysis

Cloud: AWS (EC2, S3, RDS)

Tools: Git, Maven, Postman, Docker, IntelliJ IDEA, JUnit 5, Mockito, Swagger/OpenAPI

PROJECTS

URL Shortener Service

Java, Spring Boot, MySQL, Redis, REST API

- Designed and built a scalable, low-latency service to convert long URLs into compact links using Base62 encoding, supporting high-volume request loads.
- Integrated Redis as a caching layer in front of MySQL to reduce database lookups and improve redirection latency, applying core distributed-systems caching principles.
- Implemented click analytics, custom aliases, and URL expiration as independent, fault-isolated features within a modular service design.
- Secured REST endpoints and documented the API contract with Swagger/OpenAPI; containerized the service with Docker for consistent, repeatable deployment.

Student Attendance Management System

Spring Boot, React, MySQL, JWT

- Built a full-stack, role-based application (Admin, Faculty, Student roles) with JWT-based authentication and authorization.
- Designed and implemented RESTful APIs for managing courses and attendance records, backed by an optimized relational database schema.
- Developed analytics features for attendance-percentage calculation and defaulter detection, with CSV/Excel export for reporting.

CERTIFICATIONS

- Oracle Java Foundations — validated foundational object-oriented programming and Java fundamentals
- Java (Basic) Certificate, HackerRank — demonstrated proficiency in core data structures and problem-solving

ACHIEVEMENTS & EXTRA-CURRICULARS

- Problem Solving: Solved 300+ data structures and algorithms problems; earned 100-Day and 50-Day consistency streak badges.
- Smart India Hackathon 2025: Selected for the college-level round among 23 competing teams.
- Technoverse Coding Club: Served as Vice President; organized 4 coding contests with 300+ participants each.
- Technical Writing: Published a Spring Boot blog series on Medium with 1,200+ reads.
